

TRANSCRIPT: BUILDER AND OPERATOR OF THE WESTERN SYDNEY AIRPORT

Time	Visual	Voiceover
00:00	<p>Opening information screen with Australian Government Department of Infrastructure and Regional Development logo. Text reads: Western Sydney Airport. Learn more about the project at westernsydneyairport.gov.au. Contact the Western Sydney Airport project team on freecall 1800 038 160, or by email at WSU@infrastructure.gov.au.</p> <p>A disclaimer reads: Any graphics, plans and forecasts in this presentation are indicative only.</p>	[A light, vibrant background music plays and continues throughout the video.]
00:04	The camera opens onto a long-range shot of the Western Sydney Airport site towards the north-east. The Stage 1 development of the airport with one runway, terminal facilities, and a parking and transport hub fades into view over the site.	The Australian Government is delivering the Western Sydney Airport.
00:11	<p>The next shot shows closer footage of the airport site along The Northern Road. The shot then fades into another, closer shot of housing in Western Sydney near the intersection of The Northern Road and the M4 Motorway.</p> <p>A caption flashes on screen with a graphic of a briefcase and text that reads “20,000 jobs by the early 2030s”. The next caption flashes on screen reads “Economic benefits for Western Sydney”.</p>	The airport is an exciting infrastructure project that will create jobs and help build a sound economic future for Western Sydney.
00:19	<p>The next shot shows closer footage of the airport site in the middle where the terminal may be. The shot then transitions into another perspective of the Badgerys Creek site.</p> <p>A caption flashes on screen that reads “Government-owned company to build and operate the airport”. The next caption shows a bulldozer graphic and reads “Construction to start late 2018”.</p>	The government will set up a new company to build and operate the airport. Preparations are underway so that construction can start by late 2018.
00:31	<p>An animated, artistic interpretation of the Western Sydney Airport comes into view, showing one runway, terminal facilities, transport hubs and parking, and business park facilities. The realigned The Northern Road, which passes around the site, is also in view. The shot orbits the site from one end to the other.</p> <p>The first caption reads “One 3.7-kilometre runway”. The second caption reads “Connecting Western Sydney to the world”.</p>	Stage 1 of the airport will have a single runway, capable of handling the full range of domestic and international aircraft. By developing the airport itself, the Australian Government can continue the project without delay,

00:46	<p>The camera transitions to a long-range shot over the airport site towards the southwest, with Elizabeth Drive in the foreground.</p> <p>A caption and aeroplane graphic flash on screen, reading "Airport to open in 2026."</p>	<p>so that Western Sydney can look forward to the airport opening in 2026.</p>
00:53	<p>The final frame fades in to a dark-blue background with the logo of the Australian Government Department of Infrastructure and Regional Development, along with a link to the Western Sydney Airport project website at westernsydneyairport.gov.au.</p> <p>A disclaimer at the bottom of the screen reads "Any graphics, plans and forecasts in this presentation are indicative only."</p>	-
