Beaches Link and Gore Hill Freeway Connection

Environmental Impact Statement

How to make a submission

We encourage you to make a submission on the Beaches Link and Gore Hill Freeway Connection Environmental Impact Statement (EIS). Department of Planning, Industry and Environment has placed the EIS on public exhibition until **midnight Monday 1 March 2021**.

During this time we encourage you to make a submission. Once the public exhibition period has closed, DPIE will provide us with a copy of all the submissions made. We will then prepare a submissions report to respond to the issues raised.

The report will be submitted to DPIE and available to view on their website. This report and the EIS help inform the Minister for Planning and Public Spaces' decision on the project. If the project is approved it will be built and operated in accordance with the plans described in the EIS and the Minister for Planning and Public Spaces' Conditions of Approval.

We are always looking for opportunities for innovation in our design and to further reduce the impact of our work.

This means the plans proposed in the EIS may need to evolve further. Other factors which can influence the development of the design and how we build the project include community feedback received during exhibition and the construction methods developed by the construction contractor, once they are appointed.

You may see some changes, once our selected construction contractor carries out detailed planning and design before the project starts. Any variances will be assessed for consistency with the assessment made in the EIS and if not consistent, a planning modification will have to be submitted to DPIE for their consideration and approval. You will have the opportunity to provide feedback on any modification.
